BRITAIN FIRST: POLE POSITION AMONG PATRIOTIC GROUPS!

What a tumultuous last year this has been for Britain First and the patriotic movement. We have been in the High Court battling Abu Qatada and his taxpayer-funded lawyers, who tried to curtail the civil liberties of patriots using your tax money. Unlike the outcomes of court cases in the past, by 'other parties', which led to crippling costs and penalties, we steered our way through their traps and emerged without costs or damages imposed on our members.

Recently, Britain First and other patriotic defence groups launched the 'English National Resistance' - this new militant protest organisation will lead the way on the streets defending our people. The 'English National Resistance' and affiliated groups have taken to the streets in a big way, holding demonstrations and protests across the South East and Midlands - this is exciting stuff, and Britain First is at the heart of this new branch of the movement.

Our first 'Annual Accounts', published recently, show that during our first year, Britain First invested heavily in our future and made a predictable loss, disproving the chestnut of 'money making scam' - the truth remains, and is proved by our first set of accounts, that Britain First is a serious organisation, run according to a rigid and transparent system that provides a high degree of probity and, as promised, during our first year, we achieved it all without any paid staff save for a few (cost negative) call centre workers. It also shows that our leaders have been prepared to use their own money to secure the future for all of us!

The indefatigable efforts of our volunteer leadership team and our professional approach to admin, finances and campaigning, has positioned Britain First as an organisation with one of the highest financial turnovers of any patriotic organisation in Britain, has given us around 1,000 paid up members and over 25,000 registered supporters.

I cannot express how proud I am to be part of such a professional, dynamic patriotic organisation and be able to stand shoulder to shoulder with our members and supporters in defence of our nation, children, land and people. The fact remains: we are the ONLY patriotic group still growing in the UK!

Together, Britain First and our allies, are going to set the agenda for patriotic resistance in Britain during the years to come, leading the struggle against political correctness, multiculturalism, colonisation and Islamic aggression. Britain First is also starting to make the news! For example, we were front page in a major newspaper recently that was seen by millions, all able to read about our staunch opposition to the barbaric treatment of women under Islam.

Likewise, Britain First has been leading the way in the 'flag protests' in Northern Ireland, and we have received a huge amount of publicity across Ulster. Our very own Jim Dowson has braved arrest, court appearances, and is now effectively homeless after being persecuted for playing a leading role in the flag protests. Such media exposure is priceless and thanks to our professional and organised approach to campaigning we are now a newsworthy organisation

My hope is that you read this great magazine, visit our website, join Britain First, and take your place in the ranks of the new British resistance movement ...*Britain First!*

Yours Sincerely
Paul Golding
Chairman, Britain First

OPERATION FIGHTBACK

Islamic preachers of hate have made a home in our nation, supported by an idiotic benefits system and police/political leaders who are terrified of being accused of that most heinous of crimes: Islamophobia.

Muslims leaders such as Anjem Choudary, Abu Izzadeen and Sayful Islam - and who can forget venomous parasite Abu Qatada - hate the same Britain that panders to their every need! Many more lurk below the radar of the press and the public eye, our nation has been made home to the Muslim hate preacher and our welfare system supports their Jihad every step of the way.

It was no slip of the tongue that led Anjem Choudary to describe Job Seekers Allowance as 'Jihad Seekers Allowance' - Muslim hatred is richly funded by a giro paid for by the British taxpayer. Make no mistake about it, these people stand for the destruction of all we believe in, all that is British, all that our ancestors gave their lives to protect. Anjem Choudary recently said: "We do not integrate into Christianity. We will ensure that one day you will integrate into the Sharia Islamic law." His fellow barbarian, Abu Izzadeen, proclaimed: "So we are terrorists - terrify the enemies of Allah. The Americans and British only understand one language. It's the language of blood."

Gutless fear of being perceived as "Islamophobic" hamstringing the political and legal system, and the ever present threat of Islamic 'direct action' from the millions of Muslims here strikes terror into the heart of the authorities. These hatemongers have spouted their venom for years and nothing has been done, the British people have been cowed and the British state bows before its Muslim masters and offers them Jizya.

No more - those days of dhimmitude are over, the Muslim speakers of hate and their fanatic hordes will not trample Britain unopposed. Wherever in Britain they are, whatever threats they make to our people and our way of life, we will oppose them. We will take the fight to their very doorsteps if needs be - Britain is not a halal carcass to be divided up and feasted on by the Islamic invader.

Where they speak to spread their Islamic hatred they will find us to oppose them. Where they spit on Britain they will find us, ready to fight back and made stronger by their hatred for all that we hold dear. Where they seek to bring Sharia we will stand united and proud, their barbaric ideal will be given no place here in our beloved nation.

Operation Fightback is just beginning - watch this space. No longer will we sit back and be prey to the Muslim abuser of all we hold dear, we - and hopefully you will stand with us - are going to be taking the fight to them.

Our sacred Britain is not an Islamic state, our law is not Sharia, our people are not subject to the dictates of a conquering Islam. Wherever the hate preachers seek to impose Islam upon us, we shall oppose them! Operation Fightback: standing for our nation, our culture, our people against the Islamic invader.

THE UGLY AND HIDDEN FACE OF ISLAM

Female Genital Mutilation (FGM) is the brutal and barbaric practice in which part, or all, of a girl's external genitalia are removed for 'cultural' or 'religious' reasons.

Often performed in completely unsanitary conditions, using implements such as a razor blade, and by people with no medical training, this barbaric practice is prevalent in a number of African and Asian countries with high concentrations of Muslims, and endorsed by many Muslim scholars.

Girls suffer a lifelong agony as their genitals are mutilated - and, since the advent of mass immigration, female genital mutilation is now a problem within Britain. The Prohibition of Female Circumcision Act 1985 criminalised this barbarity within the UK, and the Female Genital Mutilation Act 2003 made it a criminal offence to perform this horrendous mutilation on any British citizen or resident.

To date there have been no prosecutions, this despite various estimates placing many thousands of girls in the UK at risk of this sickening practice - the authorities tread carefully, it wouldn't do to offend the Imams of a certain imported populace.

Operation Azure, run by the Metropolitan Police, told us in its press releases that "estimates, based on data from The International Centre for Reproductive Health (2004), that within the UK around 279,500 women have undergone FGM and each year approximately 24,000 girls under 15 years are at risk of becoming victims of FGM."

As well as new laws and special police initiatives to (pretend) to deal with the issue, numerous charities such as IKWRO (Iranian and Kurdish Women's Rights Organisation) also receive massive state/lottery funding to cope with this imported problem of Middle East barbarity.

Schools, doctors, and midwives have also been issued with guidance regarding female genital mutilation. The Equality Office, in a rare moment of honesty, tell us exactly why this has become a problem in the UK:

"UK communities that are most at risk of FGM include Kenyans, Somalis, Sudanese, Sierra Leoneans, Egyptians, Nigerians and Eritreans. However women from non-African communities that are at risk of FGM include Yemeni, Kurdish, Indonesian and Pakistani women. With increased immigration, the practice has spread to Europe, North America, and Australia."

African, Asian, predominantly Muslim. Mohammed Abdul at the Masjid al-Huda in Bristol was recorded telling Muslims that they should take their daughters abroad to be circumcised as 'the British don't like Muslim cultures.'

We import barbarity abhorrent to all of Britain, we made it into Britain's problem - and the barbarians continue to ignore our law with seemingly no risk of prosecution. Countless young girls suffer this abhorrent practice, countless more are at risk of it - and it's here, it's now, it's thriving in modern multicultural Britain.

THE SCOURGE OF GROOMING CONTINUES

An horrendous epidemic of sexual abuse has swept Britain, ruining countless children's lives and shattering innocence forever - and for years officialdom has been complicit in keeping it quiet for reasons of 'community cohesion' and fear of being seen as 'Islamophobic'.

From Rochdale to Rotherham, Oxford to London, in our towns and cities the Muslim paedophile has been subjecting children to a nightmare of grooming and abuse - there is a perception that our children are "fair game", there to be exploited in order to satisfy the perverts sick sexual urges.

Laura Wilson, killed at 17 by Ashtaq Asghar after being groomed since she was aged 12. Social Services covered up her abuse, merely noting that she was at risk of exploitation by "Pakistani men". Asghar's mother called Laura a "dirty white bitch" and hit her with a shoe - Asghar stabbed her repeatedly and threw her into a canal to die.

Rochdale saw nine 'Asian' men jailed for a total of 77 years for the systematic sexual abuse of white girls. Police have revealed that they are investigating "numerous" similar cases.

A former police officer in Rochdale, Margaret Oliver, has spoken of how victims evidence was ignored and stated that "Men are still walking around Rochdale that these girls named as offenders."

In Oxford the trial resulting from Operation Bullfinch is still ongoing - brothers Akhtar and Anjum Dogar, along with a gang of Muslim cohorts, deny numerous sexual offences against under-aged girls.

Ahdal Ali and Mubarek Ali were convicted of a string of sexual offences, including rape, against young girls in the Telford area. The list goes on and on, and always follows the same sickening pattern.

Vulnerable girls are befriended by Muslim males, made subservient, plied with drugs and alcohol, passed around and used as nothing more than meat to satisfy the appetites of vile perverts.

Time and time again the authorities have looked away, they decided that our children were a price worth paying in order to pretend that Islam has integrated and is not a problem - as they sung Islam's praises another white child was being raped by imported perverts.

If it is not a problem of Muslims raping non-Muslim children then why did Baroness Warsi - herself Muslim - say that "In mosque after mosque, this should be raised as an issue so that anybody remotely involved should start to feel that the community is turning on them."

Islam, whose own prophet considered a six year old girl fair game, has brought a sickening epidemic of child abuse to our shores. Even now we are seeing only the tip of the iceberg, children across Britain are being made victim to a sickening plague of exploitation by Muslim males - most never make the papers, most perpetrators will never be arrested, police and officialdom still tread softly.

Victim after victim after victim - lives torn apart, innocence shattered, children passed from pervert to pervert. How many British children have suffered at the hands of the Muslim rape jihad as you read this? How long will it take us all to wake up and say "no more", to take a stand for all of our children?
